

RESTORE DECK SEALANT

Many of the ships on the waterfront are finding great benefit in using RESTORE Deck Sealant to fulfill PMS requirements for deck sealing. Restore deck sealant can be applied easily by the ship's company in a one step process that is ready to walk on in 8 hours. The once tedious task of sanding, mixing, & sealing with a two-part product is no longer necessary. RESTORE is a product that requires no sanding, no mixing, no special equipment, & minimal manpower. It takes a space that once had to be secured for 48 hours to allow for drying time, to a space that can now be open for business overnight. Contact a LASAR Chemicals technical representative at (757) 623-0331 to receive more information.

FEATURES:

- Transparent Finish
- Urethane Durability
- High Reflectivity
- Ready To Use
- Dries Fast
- Long Wearing
- Chemical Resistant
- Excellent Hardness
- Seals & Protects
- No Strong Odor

BENEFITS:

- Non-Yellowing
- Resists Scraping & Scratching
- "Wet" Looking Finished Product
- No Mixing
- Minimizes Down Time
- Lengthens Time Between Re-application
- Long Lasting
- Resists Normal Wear & Tear
- Decreases Need for Repairing Floors
- User Friendly
